Key Information

Atlases

An atlas is a book of maps and charts showing different parts of the world and some physical features, such as rivers and lakes.

Compass directions

A compass is a tool for finding and showing directions. A compass has four cardinal points. These are north, south, east and west. They are used to describe locations and give directions.

Antarctica

Antarctica is the coldest place on earth. The temperature in the winter is cold enough to freeze water all of the time. Antarctica has two seasons which are summer and winter.

Kenya

Kenya is located in East Africa and is on the equator. Being on the equator makes Kenya one of the hottest places on earth.
