Simone is still proud of her achievement to this day. Simone's most
former achievement came in 2024 when she finally made the team to
represent the U.S. at the Olympics. She took place in gymnastic events
and was able to place 1st for her country. Although she did achieve a
medal coming 1st at this familiar event but was still amazed and determined
of herself and her friends to this day.

Although Simone is best known for her talent competition at the Paris Olympics she has had a bunch of other awards through her gymnastic events. Those include setting a record for the hardest pike on floor her most favorite event is floor and bars. And she attended a baseball game. Straight after the practice began the Olympics Simone completed a new trick then performed it and from that she got herself 1st place from it and her family was really impressed. Biles has commented that when she does stop doing gymnastics which will be a very long time from now but everyone will still remember her for amazing, mind blowing achievements especially going to the Olympics and getting 1st place.
