

# ART - Map It Out

## Key Vocabulary

3D art	Making art by printing pictures.
printing tile	. A flat surface made of lino or wood that is used to create designs you can use over and over again.
negative print	Ink will show the background of the tile rather than the drawn lines.
printmaking	Art that has height, depth and width.
feature	An important part of something.
relief	A type of artwork where shapes stand out from a flat surface, making it look 3D.
map	A picture or drawing that shows where places are, often used to help people find their way.
layer	A single thickness or piece of material that lies over or under another.

## Prior Knowledge

Year 1	Shaping paper into a 3D structure using folding, scrunching techniques
	Joining different materials together to create a sculpture

## Key Information

- 1 Maps can be used as a stimulus to drawing and be shown in a creative way
- 2 Artwork can be made into a 3D structure  
A 3D map is called a 'relief map'
- 3 Abstract art doesn't try to represent something realistically -instead uses shapes, colours, forms and mark-making to create artwork
- 4 Lines and shapes can be added to a tile to print and produce a negative print
- 5 Form: That 'composition' means how things are arranged on the page.
- 6 Shape: Shapes can be organic (natural) and irregular.
